

S.T.A.R.C – Principle

1. Always follow the procedures and safety regulations on the project you are working on.
 - Make your own assessment of the work! Are there some obvious risks that should be paid attention to?
2. Notify in such case your supervisor or shift leader!
 - Make the supervisor or shift leader aware of the danger of a situation that may cause an Incident or an accident.
3. Perform your work according to **S.T.A.R.C** - Principle:

S - stop

T - think

A - act

R - reflect

C - communicate
